**RE: Borough of Mantoloking  
Flood Mitigation Plan  
Final**

Dear Homeowner/Resident:

The Borough of Mantoloking's Flood Mitigation Planning Committee, which includes a grouping of Borough Officials, Borough Professionals, the Borough's Code Official, Emergency Manager and Residents of the Borough has finalized the Flood Mitigation Plan which serves as a guidance document to mitigate flood damage to properties and the environment within the Borough. The Plan not only establishes the goals and guidelines for future flood protection throughout the community, but defines the Borough's continued commitment towards the protection, health, safety and welfare of its residents and their property, as well as the Borough's commitment towards the improvement of their environment. The public should be reminded that the plan is an awareness plan which will evolve as situations change and will be utilized as a guidance tool to qualify Mantoloking for additional governmental programs and credits under the FEMA CRS Program.

The Plan has been reviewed by multiple Municipal, State and County Government agents and offices, along with neighboring Towns and utility companies, to not only obtain additional suggestions to better the Borough's plan, but to educate and inform the surrounding areas of the Borough's intentions towards mitigation issues. Specific to the offices associated with emergency management, the plan has also been reviewed by the New Jersey Office of Emergency Management and the Federal Emergency Management Agency.

Accordingly, a copy of the Borough's adopted Flood Mitigation Plan may be accessed for your viewing through the following link [[View Flood Mitigation Plan](#)]. Due to the numerous items that are contained within the appendix section, said items could not be posted on this website with the Plan. However, a hard copy of the entire Plan may be viewed at Borough Hall located on Downer Avenue.

Should you require any additional information, please do not hesitate to contact the Borough at (732) 899-6600.

Very truly yours,

Robert C. Mainberger, PE, CME  
Flood Mitigation Planning Committee  
Borough of Mantoloking Dune Inspector
