URGENT: MANTOLOKING RECYCLE REJECTION

The Ocean County Department of Waste Management has **REJECTED** Mantoloking's recent load of recycle due to the contamination of the load. This is a serious issue. Plastic bags of any kind are not recyclable. Also not recyclable are Styrofoam of any kind, food containers, plastic film, yogurt cups and poly coated paper.

This is the rejected load. **Going forward, the drivers will not pick up any recycling that is in plastic bags or contains Styrofoam.**

Above is a flyer from Ocean County Recycle with all the details. Please be responsible in how you recycle as continued rejection will lead to serious consequences for Mantoloking. Get the **RECYCLE COACH APP** for your phone, free to all residents of New Jersey, to become recycle experts. It has the schedule of garbage and recycle collections and will answer your recycle questions on the “What Goes Where” section. Just type in the questionable item and you will receive the right answer. **We need everyone to recycle better!!!**
