(Fire Official approval)

30-4.13 Tents.

a. Tents may be erected in residential zones for use only as a temporary building. They may not be utilized for habitation.

b. Tents may not be sited within ten (10) feet of any side front, or rear property line except on waterfront lots where they may be sited up to the bay front, lagoon front, or ocean scarp line.

c. Any resident, owner, occupant or their agent must obtain a municipal permit before any tent is erected. The application for a municipal tent permit shall include a sketch map depicting the proposed location of the tent and shall state the date and time when the proposed tent will be erected. The permit shall expire five (5) days following erection of the tent and the tent shall be removed before expiration of the permit.

d. All tents must be constructed of approved fire retardant fabric or material and so marked. Gasoline, gas, charcoal or other cooking devices or any other unapproved open flame shall not be permitted inside or located within twenty (20) feet of any tent.

e. Any tent in excess of nine hundred (900) square feet or with a side dimension greater than thirty (30) lineal feet shall not be permitted unless the applicant also obtains proper permits from the Fire Inspector, in accordance with applicable regulations.

f. The municipal tent permit shall be conditioned upon the applicant's receipt of, and compliance with, all of the terms and conditions of any additional permits which may be required for the proposed tent.

g. A tent permit fee must accompany the application. See Appendix C. It shall be the applicant's responsibility to apply for and to obtain any ancillary permits for any proposed tent erection and, in all events, to provide all required information. No action or processing of an application for a tent will be commenced until the application is complete.
